“ Dana was a great friend of mine since 1996 when he joined the IV team part of Home Health at Kaiser Perm. I showed him the ropes and then he showed me the ropes for many years to follow. I was lucky to visit Death Valley on one of his ventures. That was an experience I will never forget. Dana was able to retain knowledge and then share in meaningful conversations. I learned so much about the stars and the night sky. We danced in Marin together for many years at Sweat Your Prayers. I loved watching him dance and that smile. Dana also love the Folsom street fair and each year would enjoy coming to the city for that event. Thank You My Friend for all the conversations, the dominoes , the dinners, the parties, and thank you for your infectious smile. You will be missed a great deal.
